

# CERTIFIED INSPECTION, INC

## Professional Home Inspections

Tom Bannister

*I'm Tom Bannister, owner of Certified Inspection, Inc. After doing 1000's of home inspections for over 16 years in the Tampa Bay area, I would like to share some things I've learned:*

- \* Home inspections are as much about people as they are about homes.*
- \* Buyers don't like surprises. A professional home inspection will educate the buyer and reduce the "unkowns".*
- \* Communication in a unbiased and professional manner can relieve fears and provide peace of mind.*
- \* A professional home inspector can help lower the risk for the buyer and their Realtor*
- \* A satisfied customer is often a repeat customer and will spread the word to family and friends*
